

Complete Cloud

Progressive Cloud Services. Fast Intelligent Support.

Why use the Cloud for my Business?

Ask most people what the “Cloud” is and get a variety of answers. The “Cloud” simply stated is a rock-solid hardware and software solution hosted at a data-center with very high performance standards, redundancies for connectivity/power/hardware, built-in backup and disaster recovery with access anywhere technology.

Your Complete Cloud 360 will include a virtual desktop with the latest version of Microsoft Office, Microsoft Email ,Security /Anti-Virus/Anti-Malware and support for every user. Included with our solution are: Virtual Servers, Virtual Managed Firewall, Off-Site Data Back-up Service, Data Storage, file sharing, and remote access built-in. The entire environment is monitored 24/7/365 and optimized for maximum performance and Security. The entire environment is monitored 24/7/365 and optimized for maximum performance and reliability.

“IT is not just an expense anymore. It is not a luxury. It is mandatory to function and flourish in today's business environment. We use it every-day to maintain relationships with clients, market our products, and network with other professionals.”

There is no need to purchase Server Hardware, Workstations, Server Software, Microsoft Office Software, or Security Software. It's all included. You pay for what you need by the month allowing maximum cash flow for your business without large capital expenses on IT infrastructure or services.

Unlimited On-site and Help Desk Services are included!

Who is going to take care of my employee issues with phones, tablets desktops, printers, etc?

Simple. We are. With local Houston based help desk services and certified, friendly technicians to help out on-site when you need it. Your employees can call us, open a ticket on-line or simply email our support mailbox to get instant help. No catches, no trip fees, no surprise bills. Just fast and friendly support.

We specialize in preventive maintenance which insures fewer problems and maximum productivity. We offer one simple affordable price for all this putting accountability on us while minimizing expense for you. Remember, you can use all that cash you didn't spend buying hardware and software to build your business now. Another benefit to using our service is that it is billed as a leased product allowing you to fully deduct your IT expense with us every year! [Call us today at \(281\) 394-3356 or \(713\) 936-0591 to get a quote and a FREE Network health assessment!](#)
